

March 2019

Apprentice Equipment Technician

Department: Service Department
Location: Macedonia and Grove City
Status: Part or Full time

Candidate qualifications and characteristics:

The ideal candidate will demonstrate a strong enthusiasm to learn, can follow specific instruction and retain information, will have some basic mechanical skills, and be able to support a strong attendance record in prior employment and/or education.

Employment Requirements:

High School degree or equivalent
Career training in a mechanical field is a plus, but not required
Reliable transportation
Ability to perform physical aspects of the job (standing, lifting, etc.)

About the position:

The objective of this position is to develop the necessary attributes of an Equipment Technician at BVS. Candidate will advance according to their ability to retain information, complete work on time and correctly, and exhibit additional potential.

Duties of the job include, but are not limited to:

- Staging of equipment
- New equipment set-up, as ability allows
- Accessory installation as part of set up, as ability allows
- Pressure washing incoming and outgoing equipment from the service department
- Warehouse maintenance and organization (will be properly trained in lift truck operation)
- Introductory diagnostic and repair work with progression as competency allows

The Apprentice Technician's daily responsibilities require independence and an ability to follow direction carefully and complete tasks on time and with little supervision.

Job Benefits and Compensation, Full-time:

Employer sponsored insurance benefits
401k retirement plan
Seasonal Overtime
No Weekends or Evenings
\$12 - \$15 / hour
Job performance and compensation reviewed after 90 days
